   Callback URL:
   https://payment-engine.antlysis.com/api/payment/duitnow/success

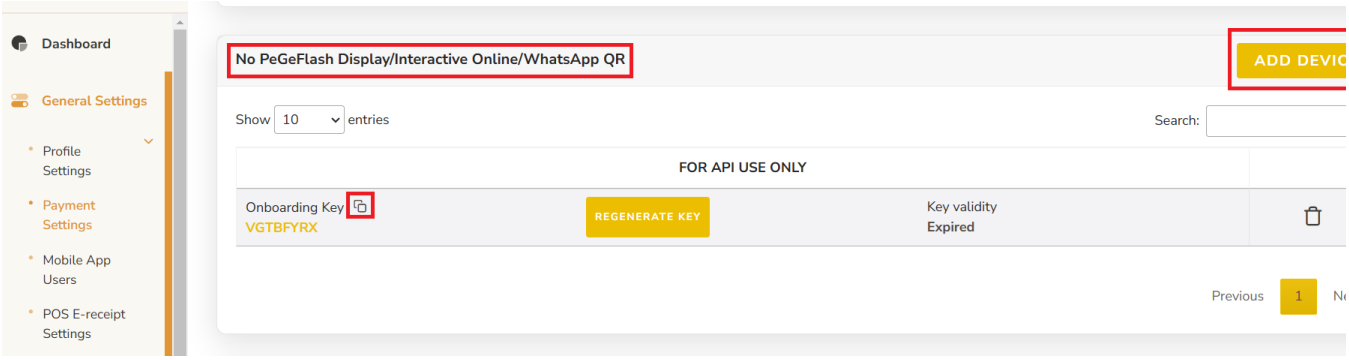

Generate QR Code

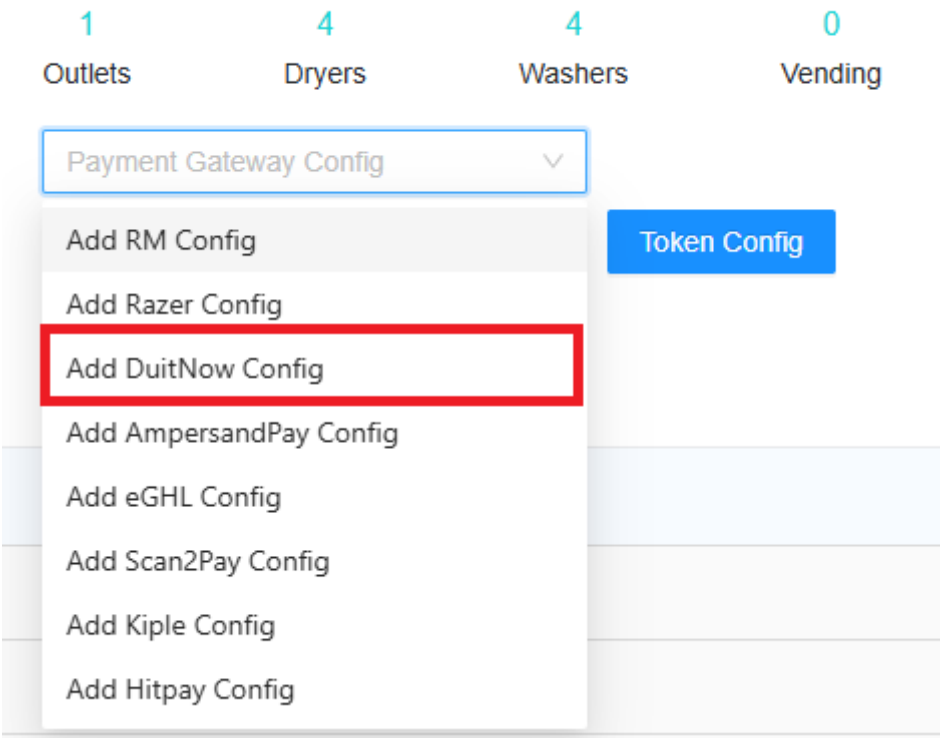

Dynamic QR Code

NOTE: if already setup dynamic QR code, when click **REGENERATE KEY**, all the old key will be expired and need to update to the latest key

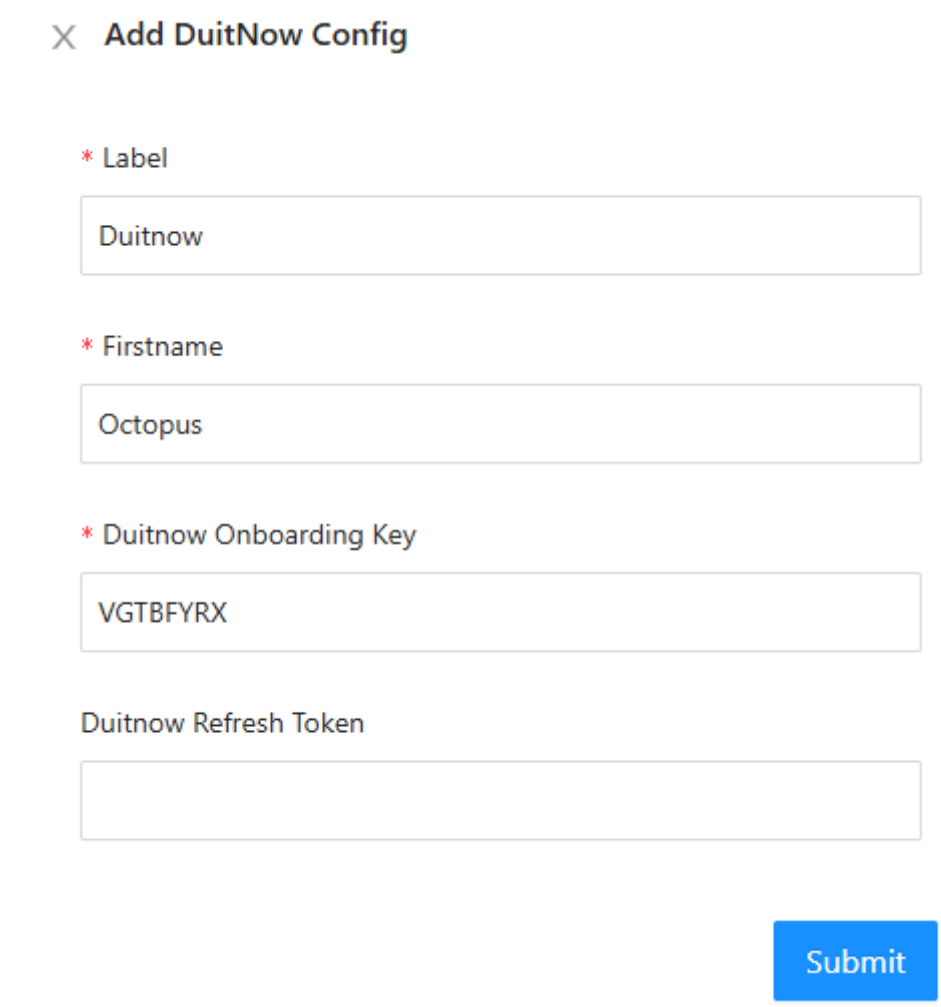

6. From Sidebar, click **General Settings**, click **Payment Settings**, under **No PeGeFlash Display/Interactive Online/WhatsApp QR**, click **ADD DEVICE** button, then copy the Onboarding Key and paste into Laundro Portal

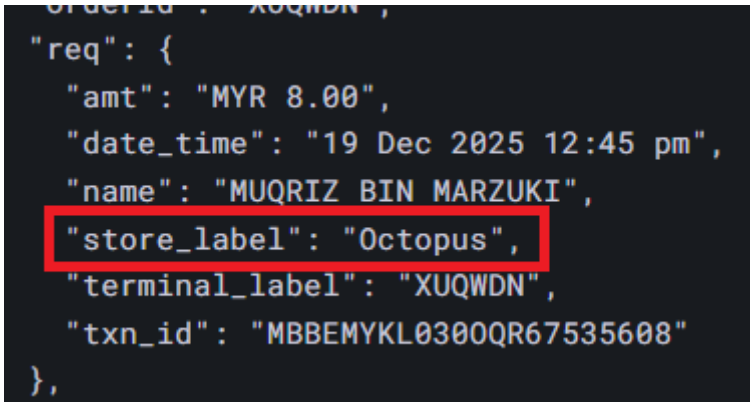

7. In Laundro Portal, go to Settings Page, under Payment Gateway Config, select **Add DuitNow Config**

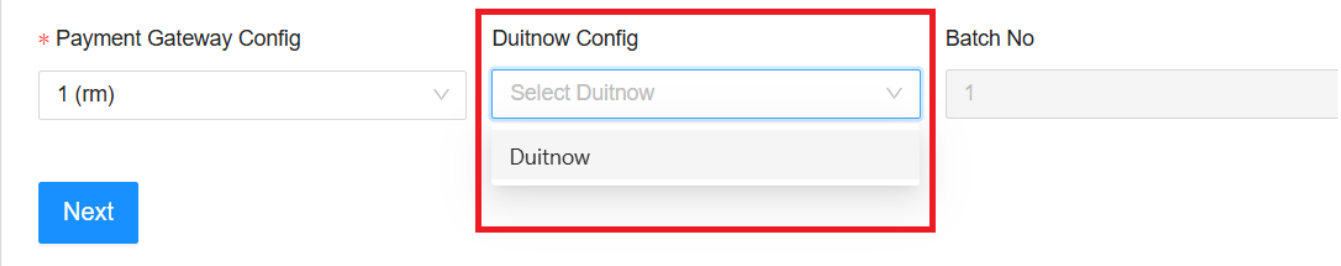

8. Input Label, firstname and paste the Onboarding Key from PeGePay into Duitnow Onboarding Key input, then click **Submit** button. The Firstname have to same with the store_label in static Duitnow callback URL. If you want to use back the old Duitnow Refresh Token, you can just copy and paste in Duitnow Refresh Token input.

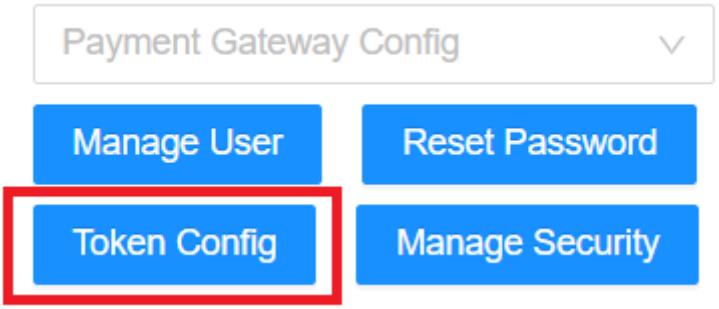

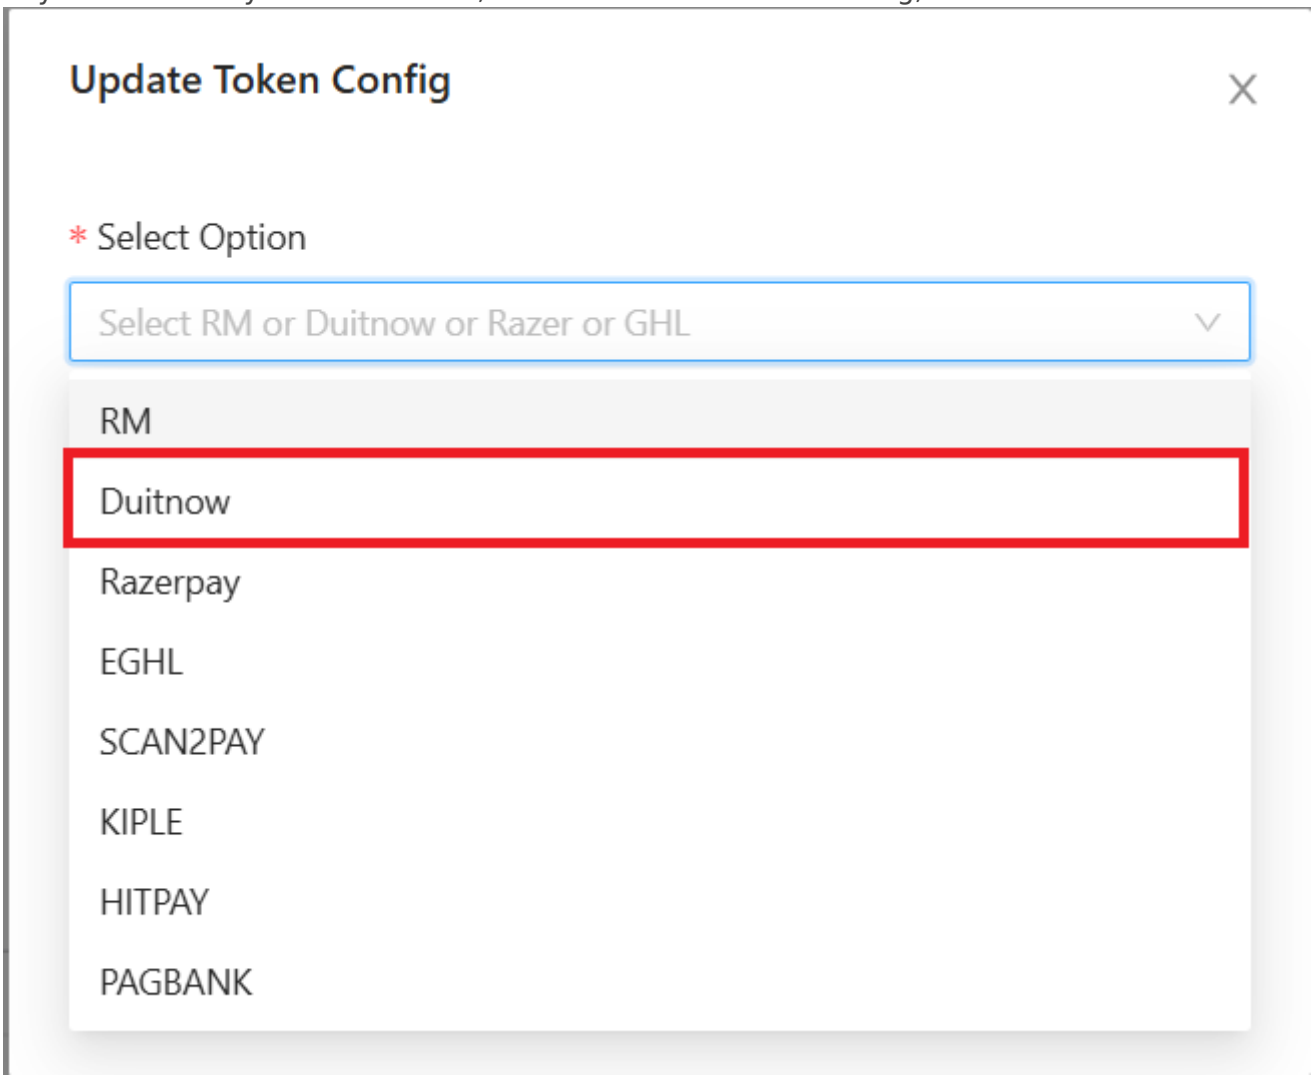

9. To enable DuitNow in machine payment page in loyalty, in outlet settings page, under **Duitnow Config**, select the config and save

10. To enable Duitnow for eToken reload in loyalty, click **Token Config** button

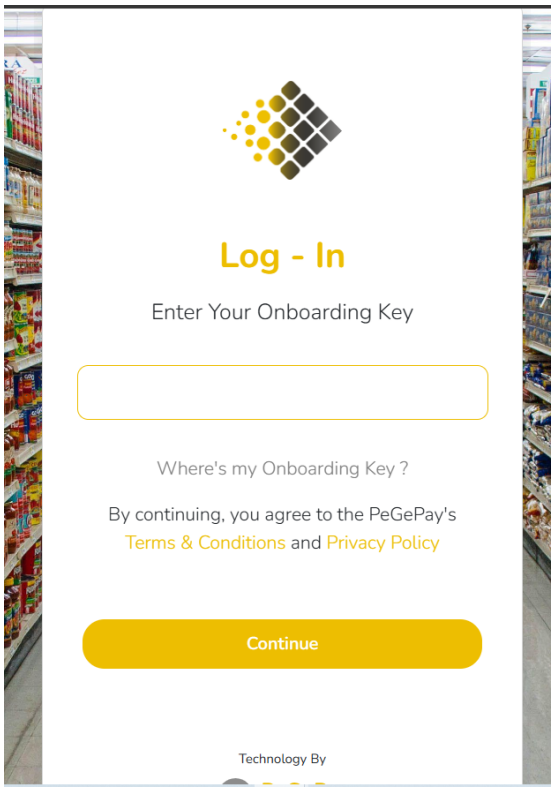

11. Payment Gateway select Duitnow, and select the duitnow Config, then **Submit** button

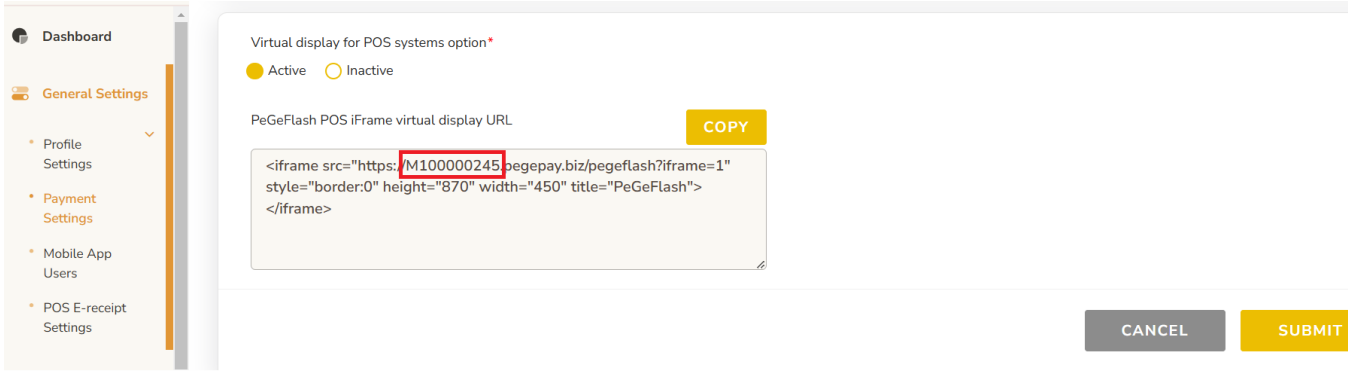

Static QR Code

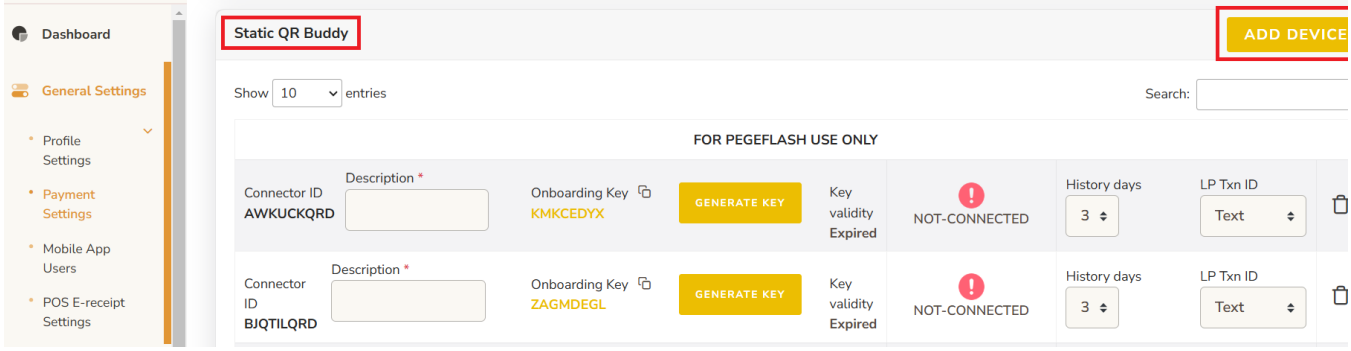

12. You can get the static QR code from https://pegepay.com/iframe.php?merchant_id=<merchantID>, replace <merchantID> with PeGePay merchant ID

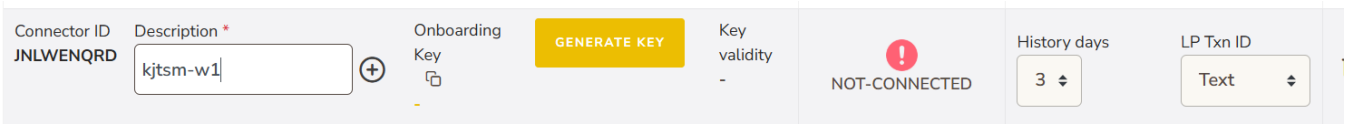

13. To get the PeGePay Merchant ID, you can get from **Payment Settings** Page, for example, M100000245 is the merchant ID and you can open the url: https://pegepay.com/iframe.php?merchant_id=M100000245

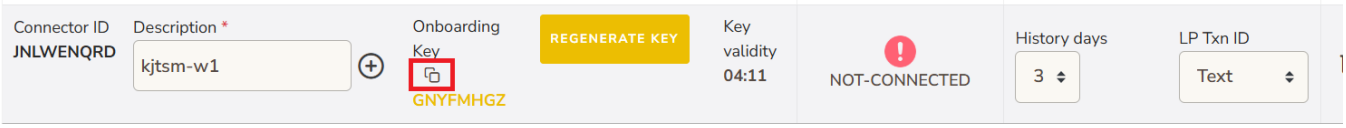

14. From **Payment Settings** page, under **Static QR Buddy**, Click **ADD DEVICE** button

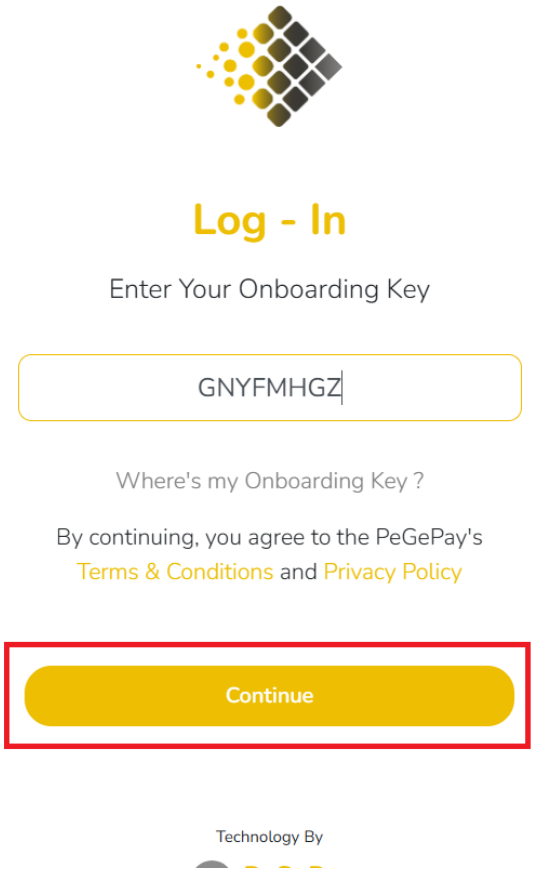

15. Enter the description and click **GENERATE KEY** button
    * The new connector ID will be empty Onboarding key and key validity, if already have onboarding key and key validity that is old connector ID

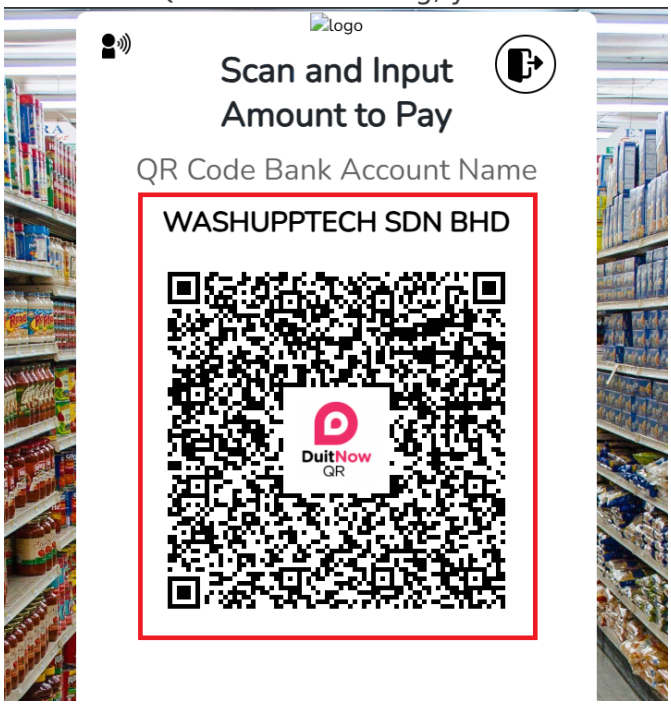

16. Copy the Onboarding Key, the key expired time is showing on Key validity

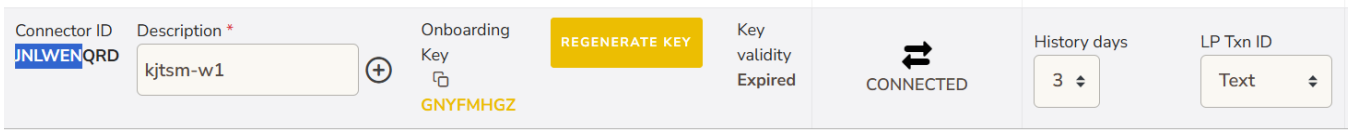

17. Paste the Onboarding Key to static QR code page and click **Continue** button

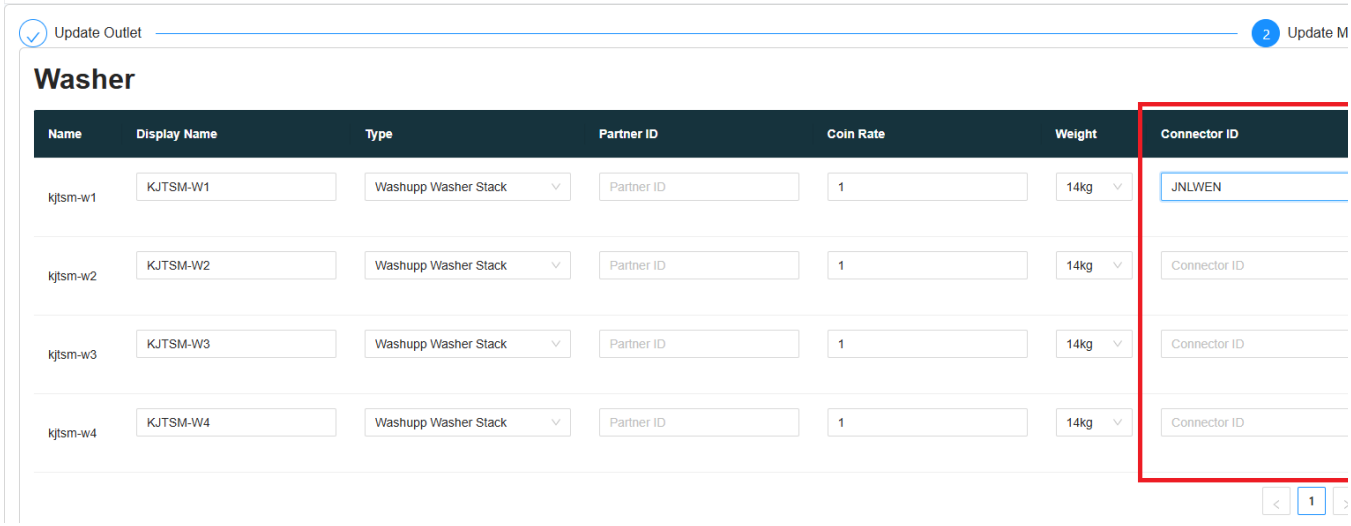

18. The Static QR Code is showing, you can screenshot the QR code with the company name

19. When the static QR code is showing, it will show CONNECTED, copy the first 6 character of Connector ID and paste into Laundro Portal, no need to copy the last three character (QRD), QRD is stand for QR Display

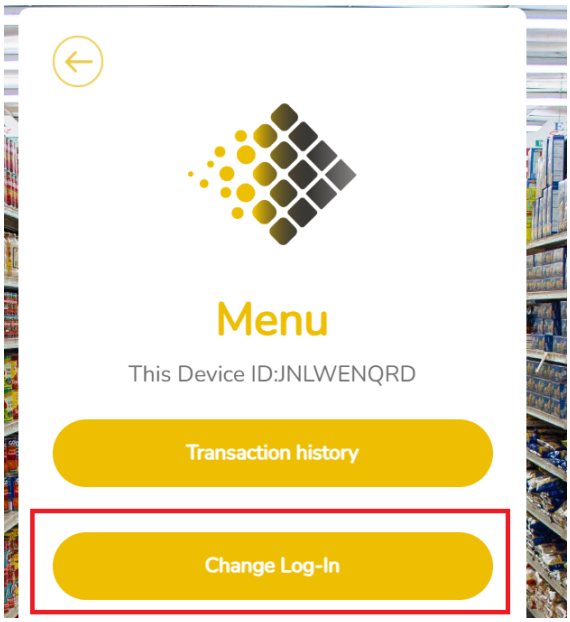

20. In Laundro Portal, in machine settings page, paste the Connector ID into the input and click save

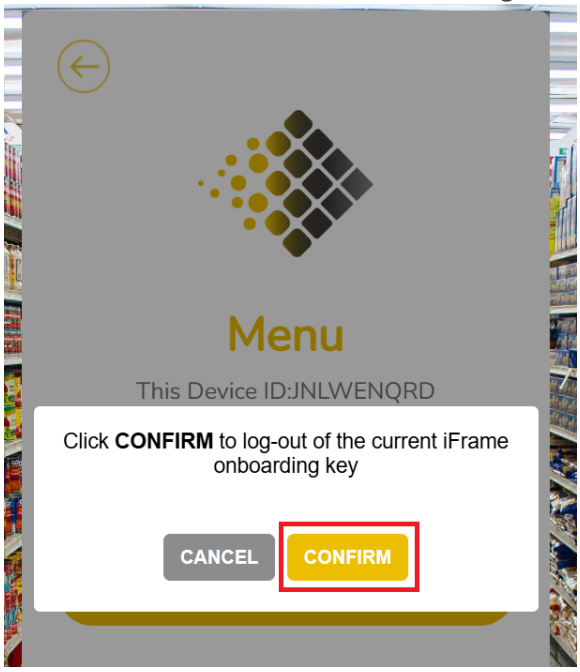

21. To generate the second machine static QR code, you can click the icon at the bottom of the page

22. Click the Change Log-In button to logout

23. Click CONFIRM button to confirm logout

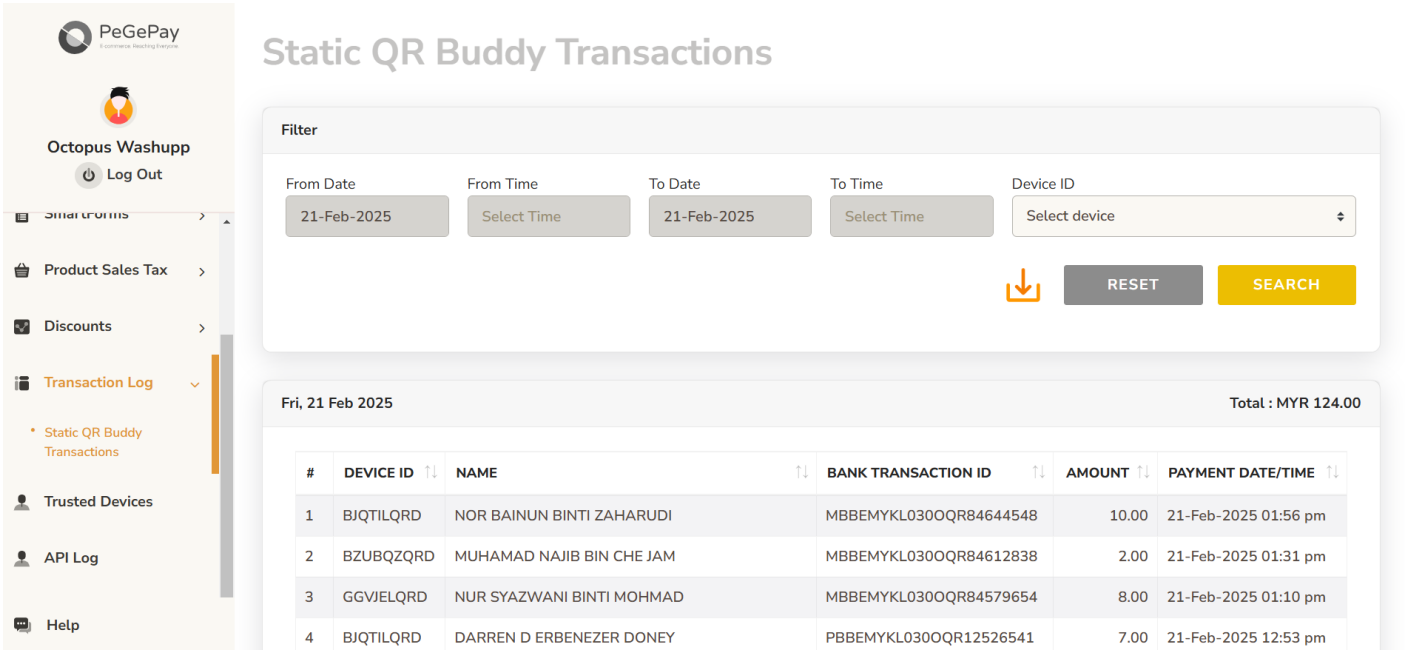

24. You can repeat the step to generate the static QR code for all the machine

Transaction Checking

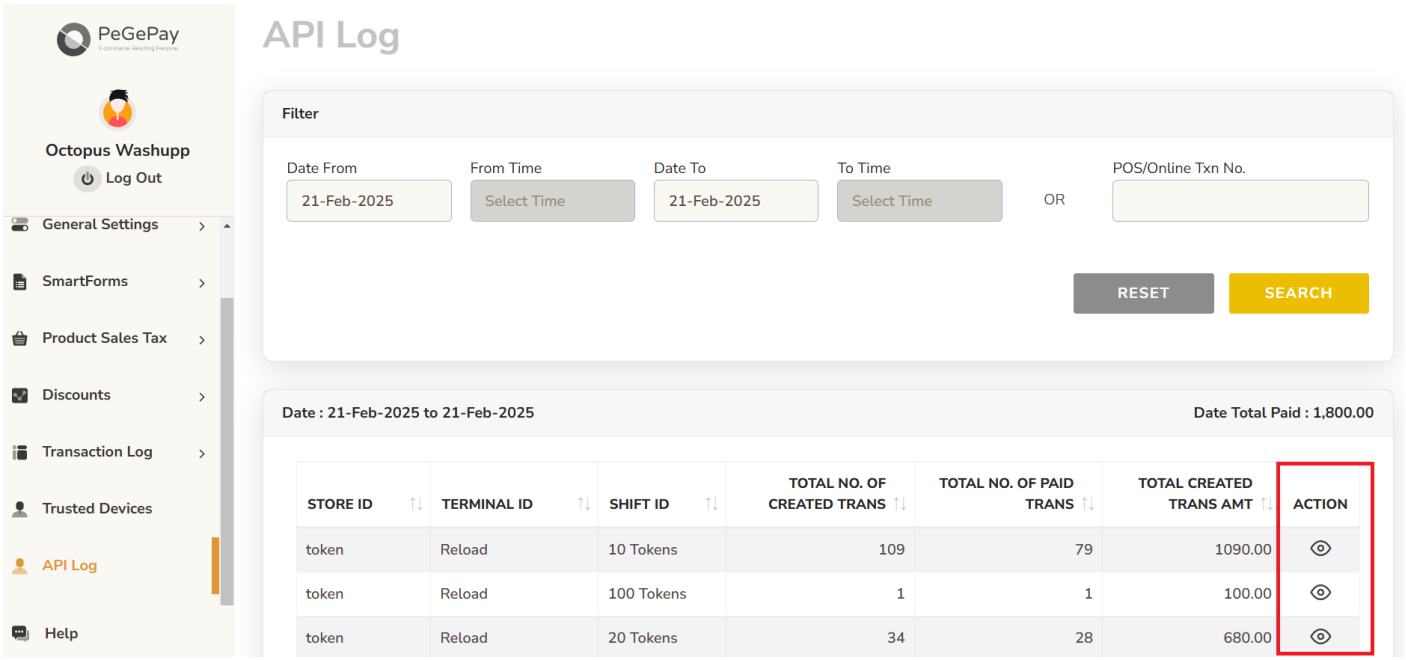

Static QR Transaction

To check the static QR code transaction status, from sidebar, click **Transaction Log**, click **Static QR Buddy Transactions**
